NEON

1001

2017-2020

Neon is a T-shirt brand created by yours truly! Made during my Illustration class, this brand was intended to fit right in with the streetwear worn by the youth of this generation. Neon was an absolute blast to create and I would love to return to it someday soon.

FUN TIME

MTL FUN TIME is a Montreal-based magazine created and designed by me and my class mates for our publication class. This magazine focuses on displaying the beauty that resides in Montreal for the tourists as well as the locals. The cover was designed by me!

**SO

DA**

So Much* Da is a carbonated water brand created for my packaging class. Meant to be for the hipsters and healthy conscious. The design is meant to be simple all the while paying homage to the Ben Day dots commonly seen in vintage comic book prints.

WHERE

ARE

This "Where the Wild Things Are" frontispiece was created as a redesign idea for a classic children's book. I decided to have fun with the monsters designs and decided to draw them in my own style.

VIEWS

FROM

View From Under was a Photography book. It was created during my photography class. This book was made to show off the beauty amongst the mundane. Pro-tip: If you are looking for something beautiful around you, simply looking up.

UNDER

A few examples of the photos inside of my photography book. Most of these pictures were taken during the same day. Places photographed include Fairview, John Abbott science building and a few miscellaneous buildings downtown.

SELF POR- TRAIT

This self-portrait was created in the illustration class. I wanted to create a comical (yet semi-accurate) portrait of me. This piece was very loosely based off of an original picture.
