An unnamed, and ungendered, narrator writes about their history of love affairs, and the one that got away. They had the tendency to leave a relationship once they got bored, but things seemed to be different with Louise. The only problem was her husband, who luckily worked enough for an affair to take place. Louise soon leaves her husband, but with the new knowledge that she has cancer, she leaves the narrator as well.

"Moving and compassionate, a love letter as much as a love story."
—Harper's Bazaar

"At once a love story and a philosophical meditation."
—New York Times Book Review

"A comedy that delves deeply into our most sacred desires. A tragedy that reads like a playful narrative."
—San Francisco Chronicle
