

# **Through The Adventure Of A Young Photographers Eyes**

**Isn't it fun learning about others? In life you have to pay attention to detail, observe everything everywhere, inspect and learn from anything you see because it is all knowledge. Bill Nye said, "Everyone you will ever meet meets knows something you don't". The mind is an infinite place.**

**I encourage you to join my mind, to be my eyes, and experience some of my experiences with this book. Here we have an "adventure" of mine that I went on in 2018 for easter. I went to New Brunswick to visit family, one of my favorite things to do ever!**

**My name is Jonathan Thériault and I am a Second Year Graphic and Web Design Student. I am no professional photographer, but I am a man with a camera, capturing memories one picture at a time. So come witness my experience in this book**

*Every Adventure Starts With One Road,  
But Can Lead To Many Destinations.*

*Adventures With Family Friends And Laughter, What Could Be Better?*

Look With Your Eyes, And Observe With Your Mind. Nature Is Magical.

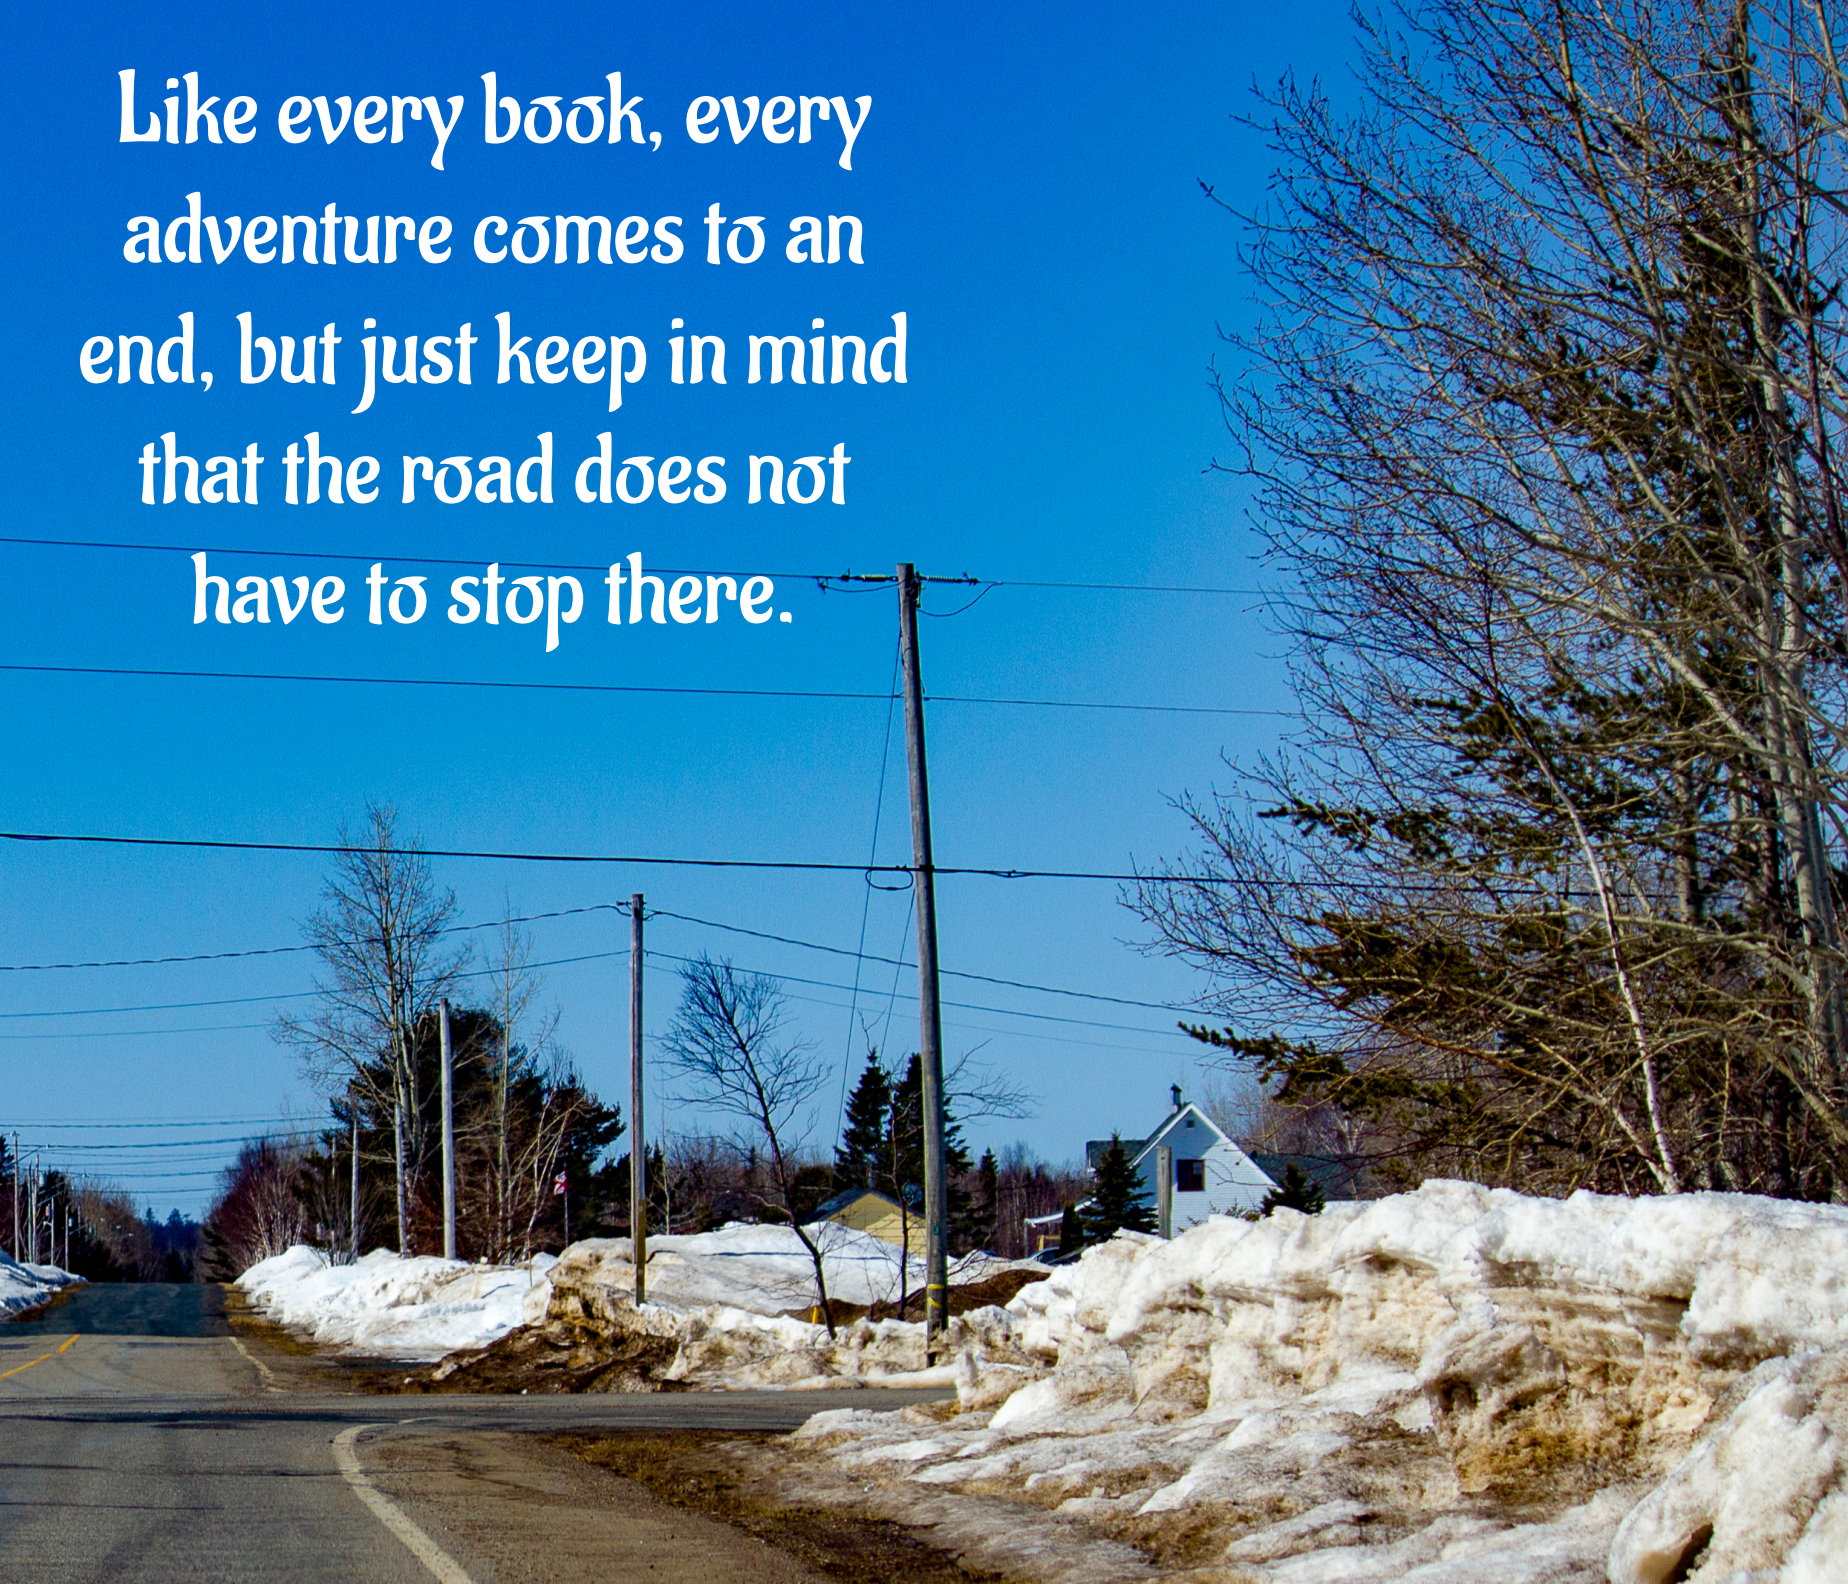

Like every book, every  
adventure comes to an  
end, but just keep in mind  
that the road does not  
have to stop there.
