Use the Missage Filtering button below to hidelphow particular messages, and to see total counts of errors and warnings.
Message Filtering
1. Warning Consider adding a lang attribute to the html start tag to declare the language of this document.  From line 1, column 18; to line 2, column 8
rion into 1, colonia 10, winter 2, wood into 10 years of the colonia 10 years
For further guidance, consult <u>Declaring the overall language of a page</u> and <u>Choosing language tags</u> .
If the HTML checker has misidentified the language of this document, please file an issue report or send e-mail to report the problem.
Waning The type attribute is unnecessary for JavaScript resources.
From line 26, column 214; to line 26, column 294  " <script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><script><s</td></tr><tr><td>Control State of the Control of the</td></tr><tr><td>3.
